Wassim Rached

Software Developer | Emerging Cloud Developer | Seeking PFE Collaboration

Profile

A dedicated software developer with almost 4 years of experience and a passion for exploring new technologies. I started coding at 17 and haven't looked back since. I love keeping up with industry trends and always look for ways to expand my skills.

Internships

Software developer at Solution Tactile, Kebili

July 2023

- **Designing and optimizing APIs** for efficient data handling.
- **Developing scalable backend solution** with a focus on performance and reliability.
- **Managing and querying databases** to ensure data integrity and performance.
- **Implementing version control practices** for collaborative development.

Education

Higher Institute of Technological Studies of Charguia

September 2022 – Present

Baccalaureate in Economics and Management At HS The Imtiez

September 2018 – May 2022

Licenses & Certifications

Scrum Fundamentals Certified (SFC™)

Issued Nov 2024

The Scrum Fundamentals Certified course provides essential insights into Scrum, covering key concepts from the SBOK® Guide and the basics of using the Scrum framework to deliver successful projects.

Projects

Google Club Unified Access System (UAS)

I developed the Google Club UAS as a distributed system to centralize and secure user access management, ensuring flexible and integrated solutions to resolve Google Club's fragmented authentication challenges.

Quizhub Platform

I built a web platform for customizable quizzes with intuitive tools and community features

StreamBuddy

I developed a WebRTC platform enabling seamless, low-latency peer-to-peer calls, video, chat, and file transfer, with no login required.
